

WIRELESS TECHNICIAN

Our client, **Leaf River Telephone**, an independent, locally owned communications provider in business for over 100 years, is seeking a wireless technician. You will:

- Specialize in new construction and upgrades of wireless telecommunication sites;
- Prepares hardware and equipment to be installed;
- Perform trouble shooting of equipment such as fixed wireless radios, routers, etc.;
- Installation of new routers and other electronic equipment within wireless sites.

The ideal candidate had one year of experience in tower climbing and RF installation. You will also be well versed in DC power, basic home construction and have competent computer skills.

Qualified candidates should send their resume to:
