

## Field Technician - Fiber Optic

We're looking for a **Field Technician** in the Rockford area who is excited to become an integral part of WIN's remote Network Team! This position will provide support for all telecommunication networks providing carrier, IPTV, broadband and Internet Service Provider (ISP) services. As a primary field support ace, you will provide all installation, DC power, provisioning, commissioning and support of all network elements in the S WI & N IL areas. You will work closely with WIN's stellar Engineering and Provisioning teams to deliver customer solutions in a timely and professional fashion.

Our Client, **Wisconsin Independent Network** (WIN) is a growing full service provider of wholesale transport solutions and next generation IP solutions (and other cool stuff) - with a state-of-the-art fiber optic network extending nearly 4000 miles with 80 POPs!

Because WIN works on the cutting edge of communication technology, we need someone who is a creative problem solver, resourceful in getting things done, and is productive working independently. To be WIN's totally amazing Field Technician, you must:

- Be a Network ninja and a WAN whiz!
- Have 3+ years supporting complex networks.
- Catch yourself using jargon like SONET, Cisco LAN/WAN, DWDM, POPs, Carrier Ethernet in everyday conversations.
- Be passionate about providing a great customer experience.
- Excel in a 24x7x365 uptime world.
- Have strong troubleshooting, collaboration and communication skills.

If you love communications technology as much as we do and enjoy diving into difficult problems and identifying solutions, we want to hear from you! Send your resume (we'll actually read it) to:
